Internship Profile

Job Title: Software Engineer I

Job Description: Position Overview

Embark on a journey where innovation meets impact. At ZoomInfo, every line of code weaves into the tapestry of our pioneering go-to-market solutions. If you are collaborative, take initiative, and get stuff done we want to talk to you! We have high aspirations for the company and are looking for the right people to help fulfill the dream.

The primary goal of this program is to equip interns with practical skills, exposure to cutting-edge technologies, and mentorship from industry experts, enabling them to build a strong foundation for a successful career in the technology sector and at ZoomInfo.

This 2-month summer internship program is tailored for tech students in their Third year of Bachelor's program or Fourth year of Integrated Master's program, eager to immerse themselves in an intense, mentoring-rich landscape. In our hybrid working environment, the palpable buzz of breakthrough unravels, mapping your potential onto real-world, high-stake projects like:

Artificial Intelligence / Machine Learning
Data and Distributed Systems
Applications

We require the following to join our team in Summer 2025:
Enrolled in a premier Computer Science and Engineering program or equivalent

Currently an undergraduate Third year or integrated

master's Fourth year student
Passion for transformative technology, with a toolbox brimming with languages like Java, C++, C# or any other mainstream programming language/framework such as JavaScript, Python, Angular, React, Apache Spark
Systematic problem-solving aptitude paired with succinct communication prowess
Eagerness to contribute to iterative, experimental team endeavors
Internship program is largely remote but anybody willing to join us in-person can do so at our Bangalore or Chennai office

Seize this exclusive invitation to define the possible, to share our vision of modernizing go-to-market for all, and to be an important part of the ZoomInfo team.
