It provides tools and services that enable individuals, small businesses, and enterprises to create, publish, promote, manage and monetize their content anywhere through the Adobe Creative Cloud and Document Cloud.</p> <p>Adobe's Digital Experience Business Unit: Adobe's Digital Experience Business Unit provides solutions that empower businesses to make, manage, measure and monetize online, offline and multichannel business initiatives.</p> <p>Adobe Document Services: Adobe Document Services is the epicenter of some of Adobe's greatest brands and is singularly focused on one goal: to continue revolutionizing the way businesses and people communicate with documents.</p> <p>Cloud Operations: Cloud Operations is responsible for ensuring Adobe's cloud platform, products and ecosystems are reliable, scalable and secure. From core infrastructure to enabling "As-a-Service" capabilities, our dedicated team of architects, software engineers, program managers and cloud administrators ensure that Adobe's customers are</p>

delighted by their experience with our products.

Cloud Technology:

The Cloud Technology group builds platform and client services that are foundational building blocks for many other Adobe products and services. Areas of focus include: identity, security, cloud storage, e-commerce, workflow management, synchronization, customer-facing web apps, scalability, infrastructure management and search, just to name a few.

As a product intern, you will indulge in doing a feature/technology development from concept to implementation using state of art technology under the guidance of an Adobe mentor and other team members in a fun-filled environment.

What you will do

- Do research on a given feature or workflow or problem statement, discuss it with other group members, define it as a "goal" for the internship and get it validated from your mentor.
- Get a good understanding of the platform the problem needs to be solved for (e.g. iOS, Android, Service on AWS/Azure, etc.) to be able to provide a good implementation.
- Generate an implementation based on a robust design.
- Showcase the implementation to your mentor and the Group Head.
