Internship Profile

Job Title: Quantitative Trader Intern

Job Description:

Quadeye is a leading algorithmic trading firm with a presence across all global exchanges. Our engineers translate their understanding of financial markets into automated trading strategies across multiple asset classes & instruments using advanced mathematical techniques. We are talented entrepreneurial individuals with a knack for numbers and genius coders who love to design resilient and robust trading systems.

Daksh Limited is a fast growing high frequency trading firm specializing in
automated market making strategies. We strive to be at the forefront of low latency
execution, financial modelling and risk management.
We are looking for smart young individuals willing to work in a multi-disciplinary role. The
role offers the individual an exciting opportunity to learn about financial markets and
cutting-edge technologies and to grow with the company. You will learn about the
dynamics of automated trading, market microstructure, modelling and pricing financial
derivatives, risk management, and the technical skills needed to implement your ideas.

Primary responsibilities :
● Analyze trading data for potential improvements to the strategy and infrastructure
● Generate and test hypothesis to improve the trading PnL
● Develop, maintain and enhance trading models and algorithms
● Improve firm's technology and processes

Requirements :
- Pursuing Bachelor's or Dual Degree in a quantitative or technical field (Computer
Science, Electronics Engineering, Mathematics, etc.)
- Excellent quantitative and logical reasoning skills with a knack for problem-solving
- Programming experience
- Passion and eagerness to learn
- Desire to work in a team
- Ability to work in the competitive and fast-paced work environment

Must be Interested in :
- Attracted to the dynamics and fundamentals of the financial markets
- Eagerness to learn and broaden one's skill set is a must, also outside your
department
- Must be Fluent in English [Major Requirement]

Personality Traits :
- Ability to work independently and also in a small team
- Can take initiative and be pro-active
- Highly analytical & problem-solving qualities
- Detail-oriented and precise
