Internship Profile

Job Title: Quantitative Researcher - Intern

Job Description:

Quantitative Researcher Intern
at NK Securities Research
Gurugram
NK Securities Research is a leading financial firm that leverages cutting edge technology and
sophisticated algorithms to trade the financial markets. Founded in 2011, we have gained
invaluable experience in the field of High Frequency Trading across different asset classes.
As a Quantitative Researcher Intern you would :
• Develop and enhance trading models using our in-house platform
• Analyze extensive financial data sets to unearth trading opportunities
• Provide analytical support to our experienced traders
• Develop predictive models for market movements
Our ideal candidate will have:
• Strong analytical skills
• Programming experience in C++ or C
• Working knowledge of Linux, Python, and shell scripting
• Keen interest in problem solving and figuring out how things work
• A work ethic that emphasizes both discipline and consistency.
• Excellent communication skills
We are a fast-growing organization where there is no ceiling on the career trajectory of an
individual. The startup style governance of the firm enables the newest employees to work with
industry veterans. Outstanding performers will be granted a Pre-Placement Offer
