Internship Profile

Job Title:	Crypto Analyst
Job Description:	Job Overview: 2Cents Capital is seeking a highly skilled and driven Crypto Analyst Intern to join our investment team. The ideal candidate will play a key role in designing and managing cryptocurrency portfolios, conducting in-depth market research, and mitigating risks associated with digital assets. If you have a passion for blockchain technology and the evolving cryptocurrency market, this is an exciting opportunity to help shape the future of digital finance. Key Responsibilities: Portfolio Creation & Management: • Design cryptocurrency investment portfolios aligned with clients' risk profiles, financial objectives, and market outlook. • Continuously monitor portfolio performance, rebalance assets as needed, and make adjustments based on evolving market conditions and client needs. Market Research & Analysis: • Conduct comprehensive research on various cryptocurrencies, blockchain projects, and decentralized finance protocols. • Analyze market trends, on-chain data, and technical indicators to identify high-potential investment opportunities. • Stay up to date with regulatory developments, industry innovations, and global trends in the cryptocurrency space. Risk Management: • Evaluate risks associated with cryptocurrency investments, including market volatility, liquidity concerns, and evolving regulatory frameworks.

- Develop and implement risk mitigation strategies to protect client portfolios and ensure long-term asset stability.

Investment Product Exploration:

- Explore new investment opportunities, including DeFi protocols, NFTs, and emerging blockchain-based assets.
- Propose innovative investment products and strategies that align with 2Cents Capital's growth objectives.

Skills & Qualifications:

- Degree in Computer Science, Engineering, or a related field.
- Strong understanding of blockchain technology, cryptocurrency markets, and decentralized ecosystems.
- Excellent analytical skills with the ability to interpret complex data, identify market signals, and generate actionable insights.
- Strong communication skills, both verbal and written, with the ability to simplify technical concepts for non-experts.
- Coding experience in Python. Knowledge of libraries such as NumPy and Pandas.

Preferred Qualifications:

- Experience with algorithmic trading, decentralized finance (DeFi), and web3 world.
- Coding experience in Solidity. Or any other smart contract languages.
- Proficiency in portfolio management strategies, asset allocation, and financial modeling techniques.
- Certification in blockchain or cryptocurrency-related courses.

Minimum No. of Hires: 5

Expected No. of Hires: 5
