Type of Organization:	Private
Nature of Business:	Data Science

Internship Profile

Job Title:	Software Intern-Pravritti'25
Job Description:	AiStrike Job Description: The next evolution of AI powered cyber defense is here. With the rise of cloud and modern technologies, organizations struggle with the vast amount of data and thereby security alerts generated by their existing security tools. Cyberattacks continue to get more sophisticated and harder to detect in the sea of alerts and false positives. According to the Forrester 2023 Enterprise Breach Benchmark Report, a security breach costs organizations an average of \$3M and takes organizations over 200 days to investigate and respond. AiStrike's platform aims at reducing the time to investigate and respond to threats by over 90%. Our approach is to leverage the power of AI and machine learning to adopt an attacker mindset to prioritize and automate cyberthreat investigation and response. The platform reduces alerts by 100:5 and provides detailed context and link analysis capabilities to investigate the alert. The platform also provides collaborative workflow and no code automation to cut down the time to respond to threats significantly. If you have the desire to join the next evolution of cyber defense, are willing to work hard and learn fast, and be part of building something special, this is the company for you. We are seeking a talented and motivated Software Engineering Intern to join our team and contribute to the development of cutting-edge applications. In this role, you will gain

valuable hands-on experience working alongside experienced engineers while applying your knowledge and skills to real-world projects.

Minimum No. of Hires:	2
Expected No. of Hires:	3
Location(s)/Place of Posting/Online:	Pune, Maharashtra.
IP & Copyright Norms:	-
Skillset:	Experience with Java/Python and Spring Boot frameworks • Familiarity with Cloud Native architecture, MicroServices, and containerization technologies like Docker and Kubernetes • Bonus points for experience with AWS, Kafka, and Neo4j • Strong communication and presentation skills • Self-motivated, results-oriented, and eager to learn • Ability to work effectively in a fast-paced, collaborative environment • Strong problem-solving and analytical skills • Excellent organizational skills and attention to detail
Project Details:	Develop and write clean, efficient code for new features and enhancements • Debug and test existing code to ensure functionality and performance • Document software applications and technical processes • Investigate and troubleshoot technical issues, proposing and implementing solutions • Collaborate with senior engineers and cross-functional teams on various projects • Proactively learn and explore new technologies and best practices
Students with backlog eligible:	No

Selection Process

Resume Shortlist:	Yes
Mode of Selection:	Hybrid
Resume shortlisting before test?:	No
Test:	Yes
Mode of Test:	Online
Test duration (minutes):	45
Aptitude/Psycometric:	Yes
Technical:	Yes
Group Discussion:	No
Personal Interview:	No
Technical Round:	Yes
HR Round:	Yes

Other Processes (if any):

No. of Rounds: 2

Medical Test: No

Eligible Academic Programs

Diversity Recruiting: No

Eligible Years: Graduating in 2026 (Pre-Final Year Students) - B.Tech / Dual / Master's

Eligible Departments: B.Tech in Biochemical Engineering & Biotechnology, B.Tech in Chemical Engineering, B.Tech in Civil Engineering, B.Tech in Computer Science & Engineering, B.Tech in Electrical Engineering, B.Tech in Electrical Engineering (Power and Automation), B.Tech in Energy Engineering, B.Tech in Engineering Physics, B.Tech in Engineering and Computational Mechanics, B.Tech in Materials Engineering, B.Tech in Mathematics & Computing, B.Tech in Mechanical Engineering, B.Tech in Production & Industrial Engineering, B.Tech in Textile Engineering, B.Tech and M.Tech in Biochemical Engg & Biotechnology, B.Tech and M.Tech in Chemical Engineering, B.Tech and M.Tech in Computer Science & Engineering, B.Tech and M.Tech in Mathematics & Computing, B.Tech and M.S.(R) in Electrical Engineering

Stipend Details

Stipend (per month) (In INR Per Month): 30,000 INR Per Month

Provision of PPO based on performance? Yes

Tentative CTC for PPO select: to be decided INR Per Annum
