We actively promote leadership by initiative
We celebrate talent and ambition
You will be surrounded by smart people who will challenge you and help you grow
You will learn faster than your peers in other organisations
Curiosity and irreverence, as well as responsibility, come together at CEEW
You will get above-market remuneration
We provide a safe space for all
At CEEW, your life is your example for others

Designation offered
Research Intern

Tenure
10 weeks during summer vacation in 2025

Focus area
Industrial Sustainability

Location
New Delhi, India

Reporting to
Programme Associate

Purpose

The IS team seeks to hire highly committed interns to contribute to our multidimensional programmes across various technical and policy areas. This role demands high-quality research to provide direction, support, and insights to policy planners and industry captains on decarbonisation options. The candidates should have an active and self-directed interest in emerging market applications. She/he should be able to perform resource assessments, market projections, techno-economic analysis, risk assessment, scenario comparisons, etc. The role offers an excellent opportunity to build and strengthen an emerging research area while collaborating with international experts.

The candidates should have excellent verbal and written communication skills, including the ability to make detailed presentations to various stakeholders and write informative reports in technical English. The candidates should demonstrate the ability to work across teams and manage multiple priorities, be detail-oriented, and be committed to adhering to timelines.

Job duties and accountabilities

Build data resources through active desktop research, intelligent web-scraping, and/or primary means, etc., for several analytical requirements.

Drive the tracking of important developments – policy and technical, in the sector and be able to inform other teams of the relevance of these for their own work.

Support the team's policy engagements with central and state government departments through research and data analysis and by preparing reports and presentations.

Write high-quality first drafts of reports and analyses for internal and external circulation.

Generate knowledge content – blogs and policy briefs during the internship duration.

Support stakeholder engagement and relevant convening, including policy and technical exchanges among government officials, R&D facilities, subject experts, etc.

Travel within India could be periodic, and presence in the field for meeting with stakeholders could be an engagement requirement.

Selection Criteria

Qualification

3rd year and 4th year undergraduate students (BTech and Dual Degree) admitted through the Joint Entrance Examination.

Experience and expertise in creating techno-economic models using Excel and other statistical software packages.

Relevant experience in programming languages, such as Python, SQL, R, and/or others, is a plus point

Knowledge of the energy landscape in India across

Knowledge of the energy landscape in India across various sectors and the policy techniques that can be leveraged to bring about change is a plus point

Key skills

Strong analytic skills, including quantitative research methods and tools that are fit for purpose.

Excellent oral and written communication skills in English

Ability to conduct techno-economic analysis, cost & benefit analysis, and sound knowledge of basic economic principles.

Strong project management skills. Confidence to handle tasks and engage with stakeholders single-handedly would be highly preferred.

CEEW operates in a dynamic environment, and the candidate must show flexibility in various tasks.

Selection process

Resume-based shortlisting

Evaluation through one assignment (open-book) and one aptitude test

Selections through final interviews

Compensation

Competitive compensation – commensurate to the experience and matching the best of standards adopted by the industry or other similar organisations for similar roles.

Application Process

CEEW is an equal opportunity employer, and the selection process does not discriminate based on age, gender, caste, ethnicity, religion, or sexuality. Female candidates are encouraged to apply.

Applications will be reviewed on a rolling basis. Interested applicants are advised to apply at the earliest possible. Only shortlisted candidates will be notified by us. We appreciate your interest.
