Type of Organization:	MNC (Foreign Origin)
Location of Head office:	New York
Nature of Business:	Core Engineering & Technology

Internship Profile

Job Title:	Data Scientist Intern
Job Description:	About the role • Nielsen measures the media-consumption habits of homes globally. Our data paints a rich portrait of the audience in those markets we measure. As a pioneer and industry leader in audience measurement for more than half a century, we take pride in our technology and processes, and we are constantly searching for new ways to advance our culture of innovation and growth. • The Data Scientist position will be part of the GDS Data Science and Analytics team within Audience Measurement. The role will include assisting with analyses, the application of Nielsen's proprietary methodologies, and developing, testing, and facilitating the implementation of statistical solutions to address specific issues or client needs. Responsibilities • Implement, test and optimize econometric, and statistical models. • Assist in developing and automating methodologies in Python and identifying and recommending process improvements. • Learn how data flows through Nielsen systems in order to create reliable data pipelines that will feed into methodology development processes. • Query data from large relational databases for various analyses and/or requests, using SQL. • Work with cross-functional teams to design, implement and test new methodologies. • Confidently represent Data Science methods and approaches to internal and external partners.

- Work closely with internal customers and Dev team to improve current processes and engineer new methods. This includes support with writing new software, testing and end-user requirements.
- Detect, troubleshoot, and resolve data or system anomalies to support uninterrupted production and ensure data integrity.

Key Skills

- Bachelor's or Master's degree in Data Science, Mathematics, Statistics, Computer Science, or fields that employ rigorous data analysis and analytical experience
- Strong verbal, presentation, and written skills
- High motivation with demonstrated capacity to work on multiple deliverables and projects with set deadlines
- Creative aptitude and desire to explore opportunities for new research innovations
- Expertise in Python and SQL through relevant experience or thorough training
- Data visualization skills such as Spotfire or Tableau
- Experience with Google Suite
- Knowledge and experience using Census data such as Current Population Survey (CPS) and American Community Survey (ACS)

Minimum No. of Hires:	-
Expected No. of Hires:	3
Location(s)/Place of Posting/Online:	Bangalore, India (Hybrid Work)
Skillset:	Key Skills • Bachelor's or Master's degree in Data Science, Mathematics, Statistics, Computer Science, or fields that employ rigorous data analysis and analytical experience • Strong verbal, presentation, and written skills • High motivation with demonstrated capacity to work on multiple deliverables and projects with set deadlines • Creative aptitude and desire to explore opportunities for new research innovations • Expertise in Python and SQL through relevant experience or thorough training • Data visualization skills such as Spotfire or Tableau • Experience with Google Suite • Knowledge and experience using Census data such as Current Population Survey (CPS) and American Community Survey (ACS)

Minimum CGPA:	6
Students with backlog eligible:	No

Selection Process

Resume Shortlist:	Yes
Mode of Selection:	Hybrid
Resume shortlisting before test?:	No
Test:	Yes

Mode of Test:	Offline
Test duration (minutes):	90
Aptitude/Psycometric:	No
Technical:	Yes
Group Discussion:	No
Personal Interview:	Yes
Technical Round:	Yes
HR Round:	No
Other Processes (if any):	
No. of Rounds:	2
Medical Test:	No

Eligible Academic Programs

Diversity Recruiting:	No
Eligible Years:	Graduating in 2026 (Pre-Final Year Students) - B.Tech / Dual / Master's
Eligible Departments:	B.Tech in Biochemical Engineering & Biotechnology, B.Tech in Chemical Engineering, B.Tech in Civil Engineering, B.Tech in Computer Science & Engineering, B.Tech in Electrical Engineering, B.Tech in Electrical Engineering (Power and Automation), B.Tech in Energy Engineering, B.Tech in Engineering Physics, B.Tech in Engineering and Computational Mechanics, B.Tech in Materials Engineering, B.Tech in Mathematics & Computing, B.Tech in Mechanical Engineering, B.Tech in Production & Industrial Engineering, B.Tech in Textile Engineering

Stipend Details

Stipend (per month) (In INR Per Month):	70,000 INR Per Month
Accommodation:	--
Any other perks/ benefits/ components:	--
Provision of PPO based on performance?	Yes
Tentative CTC for PPO select:	TBD INR Per Annum
