Internship Profile

Job Title: Data Scientist Intern

Job Description: About Us:

Hurrey is a cutting-edge technology company at the forefront of innovation in artificial intelligence and machine learning. We are dedicated to pushing the boundaries of what's possible in the world of AI-driven applications. As we continue to expand and develop groundbreaking solutions, we are seeking a passionate and skilled Machine Learning Engineer to join our dynamic team.

Position Overview:

We are looking for a highly motivated and talented Data Scientist Intern with expertise in language modelling, deep learning, RNN, CNN, and DSA. The ideal candidate should have a strong background in developing and implementing advanced machine learning algorithms and models. The successful candidate will play a pivotal role in driving our AI initiatives and contributing to the development of state-of-the-art AI-driven applications.

Responsibilities:

Research, design, and implement cutting-edge machine learning algorithms and models, with a focus on language modelling, deep learning, RNN, CNN, and AI modelling.

Collaborate with cross-functional teams to understand project requirements, gather data, and translate business needs into technical solutions.

Train and fine-tune models to achieve optimal

performance and accuracy.
 Evaluate and benchmark the performance of different machine learning models and techniques to identify the most suitable approach for specific tasks.
 Develop, optimise, and maintain code for machine learning experiments and prototypes.
 Stay up-to-date with the latest advancements in machine learning and AI technologies and integrate relevant findings into the development process.
 Participate in code reviews, share insights, and provide constructive feedback to team members.
 Prepare and present technical findings and insights to both technical and non-technical stakeholders.

Minimum No. of Hires: 4

Expected No. of Hires: 4

Location(s)/Place of Posting/Online: Bengaluru

Skillset: Expertise in language modeling, Experience with deep learning, Knowledge of Recurrent Neural Networks (RNNs), Experience with Convolutional Neural Networks (CNNs), Familiarity with AI modeling, Proficiency in data structures and algorithms (DSA), Ability to develop and optimize code for machine learning experiments, Collaboration with cross-functional teams, Ability to prepare and present technical findings, Skills in training and fine-tuning models for optimal performance, Experience in benchmarking and evaluating machine learning models, Participation in code reviews and providing feedback, Staying updated with advancements in AI and machine learning technologies

Project Details: We harness AI for enhanced information comprehension, bridging gaps between data and its meaning. Our mission is to revolutionise knowledge utilisation for individuals and businesses.

Students with backlog eligible: No

Selection Process

Resume Shortlist: Yes

Mode of Selection: Virtual

Resume shortlisting before test?: No

Test: No

Group Discussion: No

Personal Interview: No

Technical Round: Yes

HR Round: Yes

Other Processes (if any):	Assignment Round
No. of Rounds:	3
Medical Test:	No

Eligible Academic Programs

Diversity Recruiting:	No
Eligible Years:	Graduating in 2026 (Pre-Final Year Students) - B.Tech / Dual / Master's
Eligible Departments:	B.Tech in Biochemical Engineering & Biotechnology, B.Tech in Chemical Engineering, B.Tech in Civil Engineering, B.Tech in Computer Science & Engineering, B.Tech in Electrical Engineering, B.Tech in Electrical Engineering (Power and Automation), B.Tech in Energy Engineering, B.Tech in Engineering Physics, B.Tech in Engineering and Computational Mechanics, B.Tech in Materials Engineering, B.Tech in Mathematics & Computing, B.Tech in Mechanical Engineering, B.Tech in Production & Industrial Engineering, B.Tech in Textile Engineering, B.Tech and M.Tech in Computer Science & Engineering

Stipend Details

Stipend (per month) (In INR Per Month):	30,000 INR Per Month
Accommodation:	NA
Provision of PPO based on performance?	Yes
Tentative CTC for PPO select:	INR 8 - 10 LPA INR Per Annum
