

Internship Notification Form, IIT Delhi

About Organisation

Name of Company:	IHI Corporation
Date of Establishment:	1853-12-05
Number of Employees:	28,237
Social Media Page Link:	NA
Website:	https://www.ihi.co.jp/en/
Type of Organization:	MNC (Foreign Origin)
Location of Head office:	Japan
Nature of Business:	Manufacturing

Internship Profile

Job Title:	For 2026 graduates only 2025 Summer Internship_CO2 Free Engineer IHI
Job Description:	▼ Stipend Stipend will be paid based on a daily rate. 700JPY / 1H ex.700 yen per hour x 8 hours per day x 20 days per month =112,000 yen/month allowance ▼ Note:(important) Applications We have collaborated with recruiting agent, Tech Japan regarding application of summer internship internship. Kindly register and apply from below URL of Tech Japan portal as well simultaneously. https://hub.techjapan.work/student/internships/92gWV6s8BWwKNTFyj7CQMo (Company Info) About the company The IHI Group positions being a good corporate citizen who develops together with society as our primary objective and fulfills our social mission through the below visions based on our management philosophies of "Contribute to the development of society through technology" and "Human resources are our single most valuable asset". IHI Group Aims; The IHI Group seeks to solve the various environmental, industrial, social, and energy related problems of the 21st century, through using engineering expertise to focus on "Monozukuri" technology. In striving towards these goals, IHI is becoming a global enterprise offering the safety and security for the benefit of both the environment and humanity."Monozukuri" Technology means the technology used to improve the competitiveness of products and services offered, by strengthening the capabilities required in development, design, supply, manufacture and construction.

(Internship Project)
 About the project the intern will be participating.
 Exploring the potential of heat utilization technologies and businesses to realize Net Zero.

Will survey the technologies and market or demands for CO2-free heat sources (photovoltaic, wind, solar heat, geothermal, underground heat, biomass, nuclear power, nuclear fusion, etc.) in the world market up to 2050. And then, We will pickup some regions and technologies to utilize the heat source and power generations. We also conduct Feasibility study about business models and system calculations (efficiency, cost, etc.). Let`s find the novel business to contribute Net zero.

What will be the intern doing in this project.
 We will survey the technologies and market or demands for CO2-free heat sources (photovoltaic, wind, solar heat, geothermal, underground heat, biomass, nuclear power, nuclear fusion, etc.) in the world market up to 2050. And then, We will pickup some regions and technologies to utilize the heat source and power generations. We also conduct Feasibility study about business models and system calculations (efficiency, cost, etc.). Let`s find the novel business to contribute Net zero.

(Skills)
 Must have skills
 Mechanical engineering, Fluid engineering, Heat exchange, Thermal engineering
 Nice to have skills
 Marketing, business development

(Others)
 The person we are looking for.
 (1) Communication skills to promote team collaboration.
 (2)Independence to carry out research without being told to do so.
 (3)Challenging spirit to take on new challenges.

Minimum No. of Hires: 1

Expected No. of Hires: 1

Location(s)/Place of Posting/Online: Yokohama / Offline

Skillset: Mechanical engineering, Fluid engineering, Heat exchange, Thermal engineering

Students with backlog eligible: No

Selection Process

Resume Shortlist: Yes

Mode of Selection: Virtual

Resume shortlisting before test?: No

Resume shortlisting before test:	No
Test:	No
Group Discussion:	No
Personal Interview:	Yes
Technical Round:	Yes
HR Round:	Yes
Other Processes (if any):	
No. of Rounds:	1
Medical Test:	No

Eligible Academic Programs

Diversity Recruiting:	No
Eligible Years:	Graduating in 2026 (Pre-Final Year Students) - B.Tech / Dual / Master's
Eligible Departments:	B.Tech in Chemical Engineering, B.Tech in Civil Engineering, B.Tech in Energy Engineering, B.Tech in Engineering and Computational Mechanics, B.Tech in Materials Engineering, B.Tech in Mechanical Engineering, B.Tech in Production & Industrial Engineering, B.Tech and M.Tech in Chemical Engineering

Stipend Details

Stipend (per month) (In JPY Per Month):	112,000 JPY Per Month
Accommodation:	Accommodation / flight tickets provided
Provision of PPO based on performance?	Yes
Tentative CTC for PPO select:	6,800,000 JPY Per Annum
