

Internship Notification Form, IIT Delhi

About Organisation

Name of Company:	Baboune Foods Pvt Ltd
Date of Establishment:	2021-07-01
Number of Employees:	30
Social Media Page Link:	eatjoyers.in
Website:	eatjoyers.in
Type of Organization:	MNC (Indian Origin)
Nature of Business:	Manufacturing

Internship Profile

Job Title:	App development
Job Description:	The intern will gain hands-on experience in various areas such as programming, database management, AI, and UI Design. The intern will learn about AI, recipe management, and food manufacturing industry. The intern should have a background in computer science, data science, or a related field. Proficiency in programming languages (Python or JavaScript), database management (PostgreSQL or MongoDB), and AI frameworks (TensorFlow or PyTorch) is essential. Build an AI agent that can assist Joyers in managing recipes, pricing, version control, and preparing bills of materials: 1. Define Requirements: Identify Key Functions: Recipe Collection: Gather and store recipes from various customers. Pricing Management: Analyze ingredient costs and calculate pricing based on recipes. Version Control: Maintain different versions of recipes to track changes over time. Bill of Materials (BOM): Generate BOMs for each recipe, detailing ingredients and quantities. 2. Choose the Technology Stack Select Tools and Platforms: Programming Language: Python or JavaScript for backend development. Database: Use a relational database like PostgreSQL or a NoSQL database like MongoDB to store recipes and

Recipe details and ingredients to create recipe and pricing information.

AI Frameworks: Consider using TensorFlow or PyTorch for any machine learning components related to pricing predictions.

3. Develop the AI Model and train the AI model

Recipe Analysis:

Implement Natural Language Processing (NLP) to analyze and categorize recipes.

Use machine learning algorithms to predict pricing based on historical data.

4. Build the User Interface

Design a User-Friendly Interface:

Create a web application where users can input new recipes, view existing ones, and manage pricing. Ensure the interface allows easy access to version history and BOM generation.

5. Implement Version Control

Use Git or Similar Tools:

Integrate version control systems to track changes in recipes.

Allow users to revert to previous versions if necessary.

6. Generate Bills of Materials

Automate BOM Creation:

Develop algorithms that automatically generate BOMs from the stored recipes, including quantities and costs.

7. Test the System

Conduct Thorough Testing:

Perform unit tests on individual components (recipe input, pricing calculation, BOM generation). Conduct user acceptance testing with actual users from your customer base.

8. Deployment and Maintenance

Launch the AI Agent:

Deploy the application on a cloud platform for scalability (e.g., AWS or Azure).

Minimum No. of Hires:	1
Expected No. of Hires:	1
Location(s)/Place of Posting/Online:	Greater Noida
Skillset:	programming, CS, ML, AI, UI/UX
Students with backlog eligible:	No

Selection Process

Resume Shortlist:	Yes
Mode of Selection:	Hybrid
Resume shortlisting before test?:	No
Test:	No
Group Discussion:	No

Personal Interview:	Yes
Technical Round:	Yes
HR Round:	No
Other Processes (if any):	
No. of Rounds:	1
Medical Test:	No

Eligible Academic Programs

Diversity Recruiting:	No
Eligible Years:	Graduating in 2027 (Second Year Students) - B.Tech / Dual, Graduating in 2027 (Third Year Students) - Dual Degree, Graduating in 2026 (Pre-Final Year Students) - B.Tech / Dual / Master's
Eligible Departments:	B.Tech in Biochemical Engineering & Biotechnology, B.Tech in Chemical Engineering, B.Tech in Civil Engineering, B.Tech in Computer Science & Engineering, B.Tech in Electrical Engineering, B.Tech in Electrical Engineering (Power and Automation), B.Tech in Energy Engineering, B.Tech in Engineering Physics, B.Tech in Engineering and Computational Mechanics, B.Tech in Materials Engineering, B.Tech in Mathematics & Computing, B.Tech in Mechanical Engineering, B.Tech in Production & Industrial Engineering, B.Tech in Textile Engineering, B.Tech and M.Tech in Biochemical Engg & Biotechnology, B.Tech and M.Tech in Chemical Engineering, B.Tech and M.Tech in Computer Science & Engineering, B.Tech and M.Tech in Mathematics & Computing, M.Sc in Chemistry, M.Sc in Cognitive Science, M.Sc in Economics, M.Sc in Mathematics, M.Sc in Physics, Bachelor of Design, Master of Design in Industrial Design, Masters in Public Policy, B.Tech and M.S.(R) in Electrical Engineering, Master of Arts in Culture, Society, Thought

Stipend Details

Stipend (per month) (In INR Per Month):	30,000 INR Per Month
Accommodation:	No
Any other perks/ benefits/ components:	No
Provision of PPO based on performance?	Yes
Tentative CTC for PPO select:	12-15 lacs INR Per Annum

Medical Requirements

Medical Requirements: na

Other Requirements

Other Requirements: na
