

Internship Notification Form, IIT Delhi

About Organisation

Name of Company:	Micron Technology
Date of Establishment:	1978-10-05
Number of Employees:	48000
Social Media Page Link:	http://www.micron.com
Website:	http://www.micron.com
Type of Organization:	MNC (Foreign Origin)
Location of Head office:	Boise, Idaho
Nature of Business:	Other (core_engineering,manufacturing)

Internship Profile

Job Title: Intern, TD Advance Modeling Engineer

Job Description:

About Micron: We are an industry leader in innovative memory and storage solutions transforming how the world uses information to enrich life for all. With a relentless focus on our customers, technology leadership, and manufacturing and operational excellence, Micron delivers a rich portfolio of high-performance DRAM, NAND and NOR memory and storage products through our Micron® and Crucial® brands. At Micron India, you will be a part of one of the fastest ramps in Indian semiconductor history. We are ranked among Top 50 organizations for India's Best Workplaces in Manufacturing 2024 rankings by Great Place to Work Institute. In about five years, we have built an operations footprint with 20 centres of excellence and grown to over 3500 team members. We nurture a culture that is fair, fearless and fun that works to enhance personal and professional development at every level.

Culture and Values at Micron: As a leader in memory solutions our team members, partners, customers, and leadership work closely together to deliver – setting a high bar for ourselves and our industry. We believe transformation always starts within and our core values are driven by the following 5 pillars, namely:

- People - We care about each other.
- Innovation - We develop solutions that shape the world's future.
- Tenacity - Nothing shakes our resolve.
- Collaboration - We work as one team.
- Customer Focus - We win by knowing our customers

About profile – Intern, TD Advance Modeling Engineer

As an Intern, TD Advanced Modeling Engineer in the Modeling group at Micron, you will work in a multi-functional team of engineers highly skilled in the modeling of materials, process, structure, and reactors. This team's primary responsibility is to enable faster and cheaper discovery of potential solutions to Micron's most significant challenges in Memory technology development.

Qualifications:

- Experience in algorithm development, numerical methods, and scientific computing
- Strong background in DFT, MD, and MC/KMC techniques
- Experience with computational methodologies
- Familiar with FEA, FVM, PFM, HPEM, methods and implementations
- Experience with Python, Perl, TCL, MATLAB, FORTRAN, or C++
- Experience with HPC on Linux environment
- Excellent written and verbal communication
- Exemplary teamwork
- Experience with common modeling software
- Previous process modeling software development experience
- Background in semiconductor processes is encouraged

Education & Requirements

- Master's or Ph.D. in Chemical Engineering, Applied Chemistry, Applied Physics, Materials Science, or related fields.
- CGPA Criteria- 7.0 and above

Location:

Hyderabad

Micron by Numbers:

- Micron by Numbers:
- \$25.11B FY24 annual revenue
- 264 on the 2024 Fortune 500
- 57,000 patents granted and growing
- Operations in 18 countries
- 11 manufacturing sites and 12 customer labs
- 21 design center locations
- ~ 48,000 team members
- Official Website: <http://www.micron.com>

Minimum No. of Hires: 1

Expected No. of Hires: 1

Location(s)/Place of Posting/Online: Hyderabad

Skillset:

- Experience in algorithm development, numerical methods, and scientific computing
- Strong background in DFT, MD, and MC/KMC techniques
- Experience with computational methodologies
- Familiar with FEA, FVM, PFM, HPEM, methods and implementations
- Experience with Python, Perl, TCL, MATLAB, FORTRAN, or C++
- Experience with HPC on Linux environment
- Excellent written and verbal communication
- Exemplary teamwork
- Previous process modeling software development experience
- Background in semiconductor processes is encouraged

Experience with common modeling software · Previous process modeling software development experience · Background in semiconductor processes is encouraged

Minimum CGPA:	7
Students with backlog eligible:	No

Selection Process

Resume Shortlist:	Yes
Mode of Selection:	Virtual
Resume shortlisting before test?:	Yes
Test:	Yes
Mode of Test:	Offline
Test duration (minutes):	90
Aptitude/Psycometric:	Yes
Technical:	Yes
Group Discussion:	No
Personal Interview:	Yes
Technical Round:	Yes
HR Round:	No
Other Processes (if any):	
No. of Rounds:	1
Medical Test:	No

Eligible Academic Programs

Diversity Recruiting:	No
Eligible Years:	Graduating in 2026 (Pre-Final Year Students) - B.Tech / Dual / Master's
Eligible Departments:	B.Tech and M.Tech in Chemical Engineering

Stipend Details

Stipend (per month) (In INR Per Month): 50,000 INR Per Month

Accommodation: Relocation assistance provided subject to the candidate meeting the eligibility requirements.
