Internship Profile

Job Title:	Intern (Banking)
Job Description:	The Role Join us as a < Summer Intern, Quantitative Analytics & Quantitative Development > Working as part of the India Quants team contributing to quantitative research, quantitative modelling, and development. Working on front-office quantitative models for pricing and risk management of financial instruments across asset classes. Development in C++, Python, Java or other technologies as needed. Engaging with stakeholders within Front Office Quant Analytics / Model Governance, Trading, Technology and Control functions. What the Business does NatWest Markets is a market leader in derivatives trading across Fixed Income, Credit and Foreign Exchange. The Quants teams are based in London in the UK, and in Gurgaon and Bangalore in India. The successful candidate will join NatWest Markets Quants Group in Gurgaon or Bangalore and will work with India and London based Quant teams. Your Responsibilities As a < Summer Intern, Quantitative Analytics & Quantitative Development >, you will have the opportunity to work on real-world projects, learn from industry experts

and contribute to meaningful quantitative research and development initiatives.

Your key responsibilities will include:

- ▣ Proactively understand project objective and key requirements.
- ▣ Recommend analytically sound proposals for meeting project objectives.
- ▣ Implement the proposals in the team's software systems.
- ▣ Write clean, efficient, and maintainable code in C++, Python or Java based on project requirements.
- ▣ Participate in code reviews, design discussions, and team meetings.
- ▣ Demonstrate value added to the business by performing benchmarking vs. existing or alternative solutions.
- ▣ Present the results and conclusion to the Quants group.
