Internship Profile

Job Title:	Interns
Job Description:	Textile Engineer As a Textile Engineer at Trident Group, you will be responsible for supporting various aspects of textile manufacturing, from raw material processing to fabric production and quality assurance. The role offers hands-on experience in optimizing production processes, enhancing product quality, and ensuring operational efficiency in a fast-paced textile plant environment. Roles & Responsibilities: Strategy Providing direction to achieve the desired long-term and short-term objectives • Monitor production lines to ensure the efficient operation of machinery and equipment used in fiber, yarn, and fabric manufacturing. • Collaborate with senior engineers to troubleshoot production issues, reduce waste, and improve efficiency in plant operations. • Conduct tests on raw materials and finished products to ensure they meet company standards and customer specifications. • Assist in identifying defects in the production process and work with the quality control team to implement corrective actions. • Ensure timely execution of production schedules while maintaining product quality and cost efficiency. • Maintain accurate records of production data, equipment

performance, and quality test results.

Roles Requirements:

Qualifications • B.Tech in Textile Engineering or related field from a recognized institution.

- Strong understanding of textile manufacturing processes, including spinning, weaving, dyeing, and finishing.

- Knowledge of textile fibers, materials, and production machinery.

- Proficiency in MS Office and basic understanding of ERP software is a plus.

Skills and

Competencies

- Technical Knowledge: Understanding of textile processes, machinery, and material science.

- Problem-Solving: Ability to identify production issues and implement effective solutions.

- Attention to Detail: Meticulous approach to quality control and process optimization.

- Communication Skills: Strong verbal and written communication for collaboration with teams

Minimum No. of Hires:

3

Expected No. of Hires:

5

Location(s)/Place of Posting/Online:

Punjab, Barna or Madhya Pradesh, Budhni

Skillset:

Proficiency in core subjects of their respective engineering disciplines. Understanding of fundamental manufacturing processes like machining, casting, molding, welding, etc

Students with backlog eligible:

No

Selection Process

Resume Shortlist:

Yes

Mode of Selection:

Virtual

Resume shortlisting before test?:

No

Test:

No

Group Discussion:

No

Personal Interview:

Yes

Technical Round:

No

HR Round:

No

Other Processes (if any):

No. of Rounds: 1

Medical Test: No

Eligible Academic Programs

Diversity Recruiting: No

Eligible Years: Graduating in 2026 (Pre-Final Year Students) - B.Tech / Dual / Master's

Eligible Departments: B.Tech in Textile Engineering

Stipend Details

Stipend (per month) (In INR Per Month): 50,000 INR Per Month

Accommodation: No

Any other perks/ benefits/ components: No

Provision of PPO based on performance? Yes

Tentative CTC for PPO select: 12-18 LPA INR Per Annum
