

Internship Notification Form, IIT Delhi

About Organisation

Name of Company:	Wadhvani Foundation
Date of Establishment:	2000-03-02
Number of Employees:	587
Social Media Page Link:	@wadhwanifoundation
Website:	https://wadhwanifoundation.org
Type of Organization:	Others
Location of Head office:	Non Profit Organization
Nature of Business:	Other (core_engineering,analytics,it_software,data_science,teaching_research)

Internship Profile

Job Title:	GenAI and Blockchain Internship
Job Description:	About Wadhvani Foundation: Wadhvani Foundation is committed to driving large-scale impact through technology-driven innovation. We are looking for dynamic and motivated interns to work on cutting-edge projects in Generative AI (GenAI) and Blockchain that have real-world applications. Internship Roles & Responsibilities: 1. GenAI (Generative AI) Projects: AI Agent Framework: Develop intelligent AI agents capable of interacting with users, solving problems, and autonomously performing specific tasks. One of the ongoing projects is eOffice, along with other potential use cases. Retrieval-Augmented Generation (RAG): Build AI models that enhance information retrieval using generative techniques to improve the accuracy and efficiency of AI agents. Knowledge Graph: Design and populate knowledge graphs to support AI reasoning, inference, and context-aware data retrieval. 2. Blockchain Projects: Document Verification: Implement secure, tamper-proof document verification systems leveraging blockchain technology. Family Tree: Develop blockchain-based genealogy and lineage-tracing solutions for secure and verifiable records. Land Records Management: Build a transparent, immutable, and decentralized system for maintaining land ownership and transaction records.

Who Can Apply?

We are looking for students or recent graduates with a passion for AI and Blockchain technologies. Ideal candidates should have:

Strong programming skills in Python, Java, or Solidity (for Blockchain).

Familiarity with AI/ML frameworks (e.g., TensorFlow, PyTorch) and NLP models for GenAI projects.

Knowledge of blockchain frameworks (e.g., Ethereum, Hyperledger, Polygon) for Blockchain projects.

Experience with APIs, cloud services (AWS, Azure, or GCP) is a plus.

Ability to work independently, problem-solve, and contribute to innovative solutions.

Perks & Benefits:

Hands-on experience with real-world AI and Blockchain applications.

Mentorship from industry experts.

Minimum No. of Hires:	2
Expected No. of Hires:	2
Location(s)/Place of Posting/Online:	Delhi ,Nehru place

Skillset:	roficiency in blockchain technologies such as Ethereum, Hyperledger, or Solana Experience in writing and deploying smart contracts using Solidity Understanding of cryptographic principles and decentralized applications (DApps) Knowledge of consensus mechanisms and blockchain security best practices Familiarity with web3 libraries and frameworks (e.g., Hardhat, Truffle, Ethers.js, Web3.js) Ability to integrate blockchain with front-end and back-end applications
------------------	--

Project Details:	For a more detailed understanding of the above projects, the below repository contains all the necessary documentation, problem statements and broad solution roadmap for each of the projects listed above. I highly encourage you to review the documents to get a better idea of the scope and objectives of each project. Solution_Document_2024
-------------------------	---

Students with backlog eligible:	No
--	----

Selection Process

Resume Shortlist:	Yes
Mode of Selection:	Hybrid
Resume shortlisting before test?:	No
Test:	No
Group Discussion:	No
Other modes:	Assignment

Personal Interview:	Yes
Technical Round:	No
HR Round:	No
Other Processes (if any):	
No. of Rounds:	2
Medical Test:	No

Eligible Academic Programs

Diversity Recruiting:	No
Eligible Years:	Graduating in 2027 (Third Year Students) - Dual Degree, Graduating in 2026 (Pre-Final Year Students) - B.Tech / Dual / Master's
Eligible Departments:	B.Tech in Computer Science & Engineering, B.Tech in Electrical Engineering, B.Tech in Electrical Engineering (Power and Automation), B.Tech in Mathematics & Computing, B.Tech and M.Tech in Computer Science & Engineering, B.Tech and M.Tech in Mathematics & Computing, M.Sc in Mathematics, B.Tech and M.S.(R) in Electrical Engineering

Stipend Details

Stipend (per month) (In INR Per Month):	35,000 INR Per Month
Accommodation:	NO
Any other perks/ benefits/ components:	NA

Medical Requirements

Medical Requirements:	NA
------------------------------	----

Other Requirements

Other Requirements:	NA
